

The Future of SETI

William Edmondson

SETI and Science – I

- Searching without much targeting?
- Targeted search?
- RF versus Optical?
- Messaging?
- Looking?
- SETI/METI/CETI/OSETI...
- ...
- *Realism / self-awareness helps credibility.*

SETI and Science – II

- SETI's involvement in other scientific work:
 - New instruments such as ATA, perhaps better/faster optical detectors....
 - Involvement with exoplanet searching....
 - Astrobiology: theoretical work and instrumental work, e.g. exoplanet atmosphere spectrography; e.g. extremophiles.
- SETI's involvement in meetings such as NAM

SETI and Science – III

- SETI established as fundable science.
- SETI with organizational/institutional status.
- SETI in UK with links to other SETI activity, e.g. The SETI Institute in California.
